

RAMIRO STUARDI

Córdoba, Argentina - [linkedin.com/in/ramiro-stuardi/](https://www.linkedin.com/in/ramiro-stuardi/) - +54 9 351 616 0937 - ramirostuardi@gmail.com

Industrial Engineer with experience in data analysis, dashboard development and cross-functional project coordination. Skilled in transforming complex datasets into actionable insights to support business decisions and performance optimization. Experienced working with stakeholders from different areas and building data-driven reports to guide strategic decisions. Interested in analytics, growth strategy and consulting roles.

EXPERIENCE

Renault

Procurement Projects Intern
2025

Córdoba, Argentina
April 2025-December

- Developed data dashboards in Excel and Power BI to monitor supplier performance, project milestones and procurement KPIs.
- Analyzed operational datasets to identify delays, inefficiencies and improvement opportunities in the supply chain.
- Generated data-driven reports and insights to support decision making for procurement and engineering teams.
- Coordinated with cross-functional teams (Engineering, Logistics and Purchasing) to align project execution and timelines.
- Automated reporting processes and data consolidation, reducing manual analysis time and improving visibility of key metrics.
- Participated in weekly planning meetings, providing analytical support for project tracking and performance evaluation.

Renault

Customer Service Operations Intern

Córdoba, Argentina
June 2024-April 2025

- Managed supplier payment processes in SAP, ensuring compliance with deadlines and internal controls.
- Monitored operational budgets and prepared performance reports to track expenses and identify deviations.
- Administered SAP and Salesforce user access for a 40-person team, ensuring data integrity and system governance.
- Analyzed operational costs and administrative data to support efficiency improvements and resource optimization.
- Coordinated with internal teams and suppliers to resolve operational issues and improve service workflows.
- Supported customer case management processes and continuous improvement initiatives within the service operations team.
